Grading Rubric

Final App Ideas:

- 0.5 Implement Core Data so that you have at least two entities linked together by a Core Data relationship.
- <u>0.5</u> Implement at least two UIViewController subclasses.
- ___ Include a UITableView that displays the data persisted in Core Data.
- 1 Add data to the database from an interface.

		litional			1 •.		
$\Delta \Delta$		11	\sim	വച	l itc	mc	
\neg u	u	1 (1	\mathbf{v}	ıaı	יונכ		

Additional items	
You only have one entity and no relationships	
You don't technically have any UIViewController subclasses, although theres Swift UI Views.	
While pressing a button technically adds data, the user won't know what they're adding.	
You could have easily added a second VC with some textfields that accomplished the same thing.	

Grade: ______
